

STOCKHOLM - FIXING AND CARE INSTRUCTIONS

IMPORTANT - Please read these instructions before starting work

1. Check that there are no buried pipes or cables before drilling any holes.
Take extreme care when using electrical equipment near water.
2. Do not fix accessories onto newly papered or painted surface as chemical reactions could cause discolouration to the products. (Please refer to manufacturer's instructions).
3. We recommend the use of a special drill bit when fixing accessories to a tiled area. (Please refer to manufacturer's instructions).

SUPPLIED FIXINGS:

Screws and wall plugs.

FIXING INSTRUCTIONS

1. Establish position for accessories, making sure there is sufficient room.
2. Hold the accessory in position and mark through the screw holes with a pencil.
3. Drill holes to a depth of 35 mm using a 5.5 mm masonry drill and insert the wall plugs so they are flush with the wall.
(NOTE: The wall plugs provided are recommended for **SOLID WALLS** only. If using on plasterboard or hollow walls, specialist fixings **ARE** required. These can be obtained from a DIY outlet).
Some tolerance is provided with the horizontal & vertical adjustment, but care should be taken when drilling.
4. Fix the accessory to the wall with the screws provided.
(NOTE: When fixing the shelf, the backplate and uprights should be fitted first and then the glass.
The glass shelf retaining screws should not be over-tightened as this could cause distortion).

CARE INSTRUCTIONS

We recommend regular cleaning with a mild soap liquid and drying with a soft cloth.

The use of abrasive cleaners or bleach will damage the finish.

Your bathroom should be ventilated to prevent condensation.

PLEASE NOTE:

These measurements are for guidance only and may vary on individual production runs, items **MUST always** be measured prior to fitting.

Shelf, 602C	Short Towel Rail, 606C
 350 - 380 mm 	 485 mm 
Toilet Roll Holder, 607C	Treble Hook, 608C
