# INSTALLATION GUIDE

# IMPORTANT:
# Please read the complete instructions before commencing fitting.

Make sure the tray is 100% level in all directions. Do Not attempt to install the product unless you can tick all 4 boxes satisfactorily.

. Check that you have the tools required ☐
. Check the installation site is compatible with sizes of door supplied ☐
. Check all the enclosure components are present ☐
. Check that the installation kit is complete ☐

If you install the product in a way that differs from this manual this will void all guarantees. Before installation check that the product meets all your requirements and is not damaged. By proceeding with installation, you accept the condition of the product.

The wall plugs supplied with the installation kit are for use in solid walls. Hollow or 'stud partition' walls will require alternative fixings. Please consult a hardware supplier for the correct type.

It may also be necessary to consult your tiling supplier about the correct method for drilling your tiles.

ATTENTION: TAKE EXTREME CARE WHEN HANDLING GLASS, WEAR PROTECTIVE EYEWEAR AND CLOTHING. DO NOT LEAVE THE GLASS ON HARD SURFACES AND AVOID CONTACT BETWEEN THE GLASS EDGES AND HARD SURFACES OR IMPACTS DURING THE INSTALLATION.

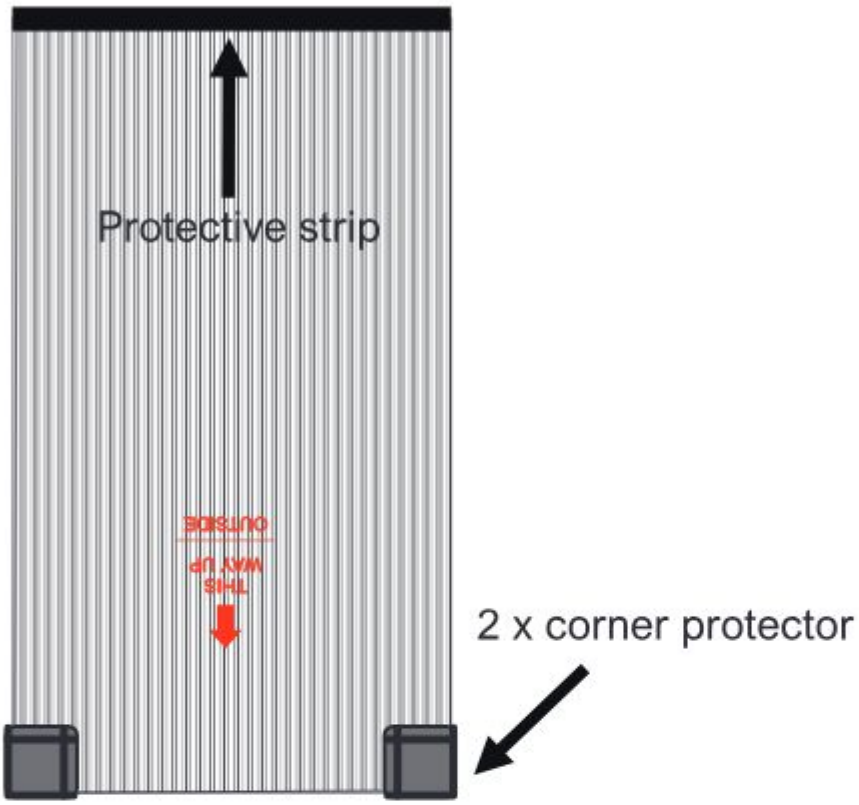
# ATTENTION !!

Note that the glass panel is packed upside down and should be stored this way until final assembly into the wall profile.



---

Rotate the panel and remove the protective packaging just prior to assembly into the wall profile.

Before sealing make sure all surfaces are clean, dry and free from any residue such as grout. Use quality silicone sealant and applicator gun to fnish the wetroom panels.

Seal top to bottom on the OUTSIDE between the wall and the wall profle. Seal along the bottom on the OUTSIDE between the glass/rail/profle and the tray or floor. Seal approx 50mm up between the glass and the wall profle.

**DO NOT USE FOR 24 HOURS!**
